Desirous of placing within the reach of all the lescendants of Revolutionary Officers the means of ascertaining whether or not the names of their ancestors are found upon the authentic rolls of the Army, among those embraced in the Mills referred to, the undersigned will furnish for pubication, to all publishers of newspapers who will give this advertisement three insertions in their papers respectively (and send a copy thereof to him) full lists of the officers aforesaid for the thirteen original States. The publication of these lists will effectually remove one main objection to the proposed bill which has been raised by some members of Congress, to wit: that these claims were known only to agents, who would charge exorbitant commissions for the presecu tion and recovery of them, leaving but little to

the claimants If claimants, with a full knowledge of their rights, think proper to give one half, or any other portion of their claims to their attorneys, the government has no right to complain. If mem-bers of Congress, instead of fulminating their wrath against agents, would procure the publication of the lists of claims embraced in every law they enact, (so far as the records of the gov-ernment furnish the names of parties entitled,) they would render a far more valuable service to their constituents, than by opposing a law to pay just claims on the pretext that agents will receive large fees for their services.

It is not, however, the purpose of the under-signed to interfere, in any manner, with mem-bers of Congress, in the discharge of their duties, nor with agents in the recovery of their commissions, whether high or low. The publication of the lists in the newspapers, is, in his judgment, a simple act of justice to claimants—and it is but just to himself, and cannot possibly be complained of by others when he states, that for the prosecution and recovery of the claims of Officers of the Continental Army, whose names are on the lists referred to, his commis-sions will uniformly be five per cent. on the amount recovered. His commissions in other cases will be a matter of special contract.

To save all unnecessary correspondence, the undersigned states, that he council attend to laims of soldiers for pensions under the act of 1832, nor can he make investigations into any pension cases "superaded" by the Pension Office without the responsers of the Directors.

OPERATE by their powerful influence on the internal viscera to purify the blood and atima late it into healthy action. They remove the obstructions of the stomach, bowels, liver, and other organs of the body, and, by restoring their irregular action to health, correct, wherever they exist, such derangements as are the first causes of disease. An extensive trial of their virtues, by Professor, Physicians, and Patients, has shown curse of day gerous diseases almost beyond belief, were they not substantiated by persons of such exaited position and character as to forbid the suspicion of untruth. Their certificates are published in my American Almanac, which the Agents below named to pleased to furnish free to all inquiring.

Annexed we give Directions for their use in the complaints which they have been found to curs.

FOR COSTIVENESS.—Take one or two Pills, as such quantity as to gently move the bowels. Costiveness is frequently the aggravating cause of PILES, and the cure of one complaint is the curs of both. No person can feel well while under a costive habit of body. Hence it should be, as it can be, promptly relieved.

FOR DYSPERSIA, which is sometimes the sums of Costiveness, and always uncomfortable, take mild doses—from one to four—to stimulate the stomach.
